Reference: Carezza Developments Ltd

To whom it may concern.

As Architects we have known and worked with Lui Carezza and his team for nearly 10 years. They have always produced work to a quality standard and have managed their projects with diligence and skill. Lui, himself, is a highly competent organiser and Manager, who demonstrates an ability to successfully complete projects to the required standard, program and cost.

His knowledge of traditional crafts and skills is very good and his specialist trade contacts offer a flexible and effective workforce, suited to any situation. The team possess a "can do" attitude to their projects and have demonstrated excellent problem solving skills in delivering the works.

I would be happy to recommend Lui and his team in consideration for construction projects both new build and refurbishment. His workforce is flexible and could be tailored to suit most situations successfully. If you require further information then I am available on 01386 555166, during office hours.

Yours sincerely

**Paul Phillips BA(Hons) PGCE**
